SUZUKI RECOMMENDED MAINTENANCE SCHEDULE

99990-SESX4-09E

Way of Life!

FACTORY RECOMMENDED MAINTENANCE SCHEDULE For Canadian Driving Conditions

The following pages include the factory recommended Maintenance Schedule for Canadian Driving Conditions. Following this schedule will ensure optimum reliability and durability of your vehicle and enhance its resale value.

For your records, your Dealer will fill in and sign the Owner Copy for each scheduled service that is performed. Your Dealer will also remove the Dealer Copy for that service. Once removed, the next scheduled service interval will appear through the window on the Maintenance Schedule cover of this booklet.

ADDITIONAL MAINTENANCE REQUIREMENTS:

Every 80,000 km	Replace automatic transmission fluid
Every 250,000 km or 150 months	Replace fuel filter
Every 250,000 km or 180 months	Replace EVAP canister
After first replacement at	Replace Engine Coolant
150,000 km or 90 months and every	Super (blue)
75,000 km or 45 months thereafter
